Sometimes wide angle is not enough. We need ZOOM!

It is highly desirable to record photos and videos at a standoff distance. Sector Optics has designed a unique solution providing standard GoPro™ Hero™ 2-, 3- and 4-compatible housing together with 20x zoom lens that fits standard unmodified Hero camera. EagleEye is water-resistant, can be mounted on a tripod, Picatinny rail on a weapon system or even handheld. The amazing GoPro™ camera can now record events up to 1km!

Hero™ cameras provide 12 Mpixel photo and video recording capability, including 1080p at 60 Hz, 4K resolution using standard H.264 format. Cameras can be remotely controlled by WiFi or smartphones or tablet. Devices can simultaneously record photos and videos and are water-resistant (in housing).

Sector Optics offers a number of mounting solutions:

- Hero™ 20x lens ships with a standard tripod mount adapter (1/4-20) and offers optical 4.7 degrees FOV making it possible to record videos at ranges of up to 1km.

- Alternative mounts with EagleEye Picatinny rail and EagleEye reverse Picatinny rail provide an ability to mount the system on a weapon or surveillance instrument to record what operator sees.

Attachments	Tripod mount (standard) EagleEye Picatinny stand and mount (optional) EagleEye reverse Picatinny mount (optional)
Camera	GoPro™ compatible housing (camera not included)
Field-of-View	In Wide mode: 4.7° In Medium mode: 4.7° x 2.9° In Narrow mode: 3.2° x 1.8°
Display/Output	Supports all GoPro™ options
Size	10.5" x 3.1" x 2.4"
Weight	872 g
Power	Supports all GoPro™ options
