

EagleEye Hero™

GS 90-100

The EagleEye gun scope attachment allows any user to record and transmit high resolution photos and video using their own gun scope. The attachment is designed around the user friendly and well-known GoPro™ suite of Hero™ cameras. The latest GoPro™ Hero™ models allow for the real-time sharing of the shooter's perspective in HD. Developed for rugged use, EagleEye can withstand the recoil of a 50 cal and easily mounts on any scope neck from 30 mm to 36 mm diameter. Record and show off your hunting or shooting session!

Hero™ cameras provide high resolution photo and video recording capability, up to 4K using standard H.264 format. Cameras can be remotely controlled by WiFi with smartphones and tablets.

GoPro™ Hero 2-6 and beyond...
