

F₂™ Rangefinder

Most Innovative Rangefinder Ever!

F₂™ an innovation? More like a revolution. The F₂™ is the first over 1 km handheld or mounted rangefinder with multiple outputs. Clean, ultra-light, timeless shape. The shape of the flashlight is naturally sitting in the palm of your hand. When not in use, the F₂™ is not crimping your style as a brick on the neck, thanks to the innovative Sector Optics configuration. Extraordinary design meets extraordinary technology.

Range	2,000 yds/m
Accuracy	5 to 1,500 yds/m ±1 yd/m
Display	1/2" white OLED
Metric/Imperial	Yes, selected
Laser	905 nm, Eye Safe Class I
Measuring Time	<0.25 sec
Remote Control	Included
Remote Display	Yes, connects to ID™
Size	140 x 34 x 34 mm
Weight	170 g (without battery)
Power	3V CR123 or rechargeable

BENEFITS AT A GLANCE

- Range over 1.5km
- Intuitive and easy user interface
- Precise measurement time of .25 seconds with resolution of 1m
- Built-in display with range and horizontal equivalent distance
- Integrates with ID™ products manufactured by Sector Optics
- Simplified battery cap for a single CR123 battery (or rechargeable)
