

T8[®] Thermal Clip-on

The uncooled T8[®] Thermal Clip-on transforms any (3-10x) day time scope into a high-definition thermal scope. When mounted, the T8[®] enhances any operator's detection, observation, and engagement while maintaining the day optic's ballistic zero.

The T8[®] Thermal Clip-On features a state-of-the-art 1280 x 1024 VOx thermal sensor displayed on a 1920 x 1080 Colod OLED. The next-generation VOx sensor has excellent reliability, magnificent imagery and stunning range performance. Cutting edge image enhancement algorithms result in an unrivaled day/night vision advantage in detecting, observing and engaging targets.

The T8[®] incorporates a simple user interface and quick Picatinny rail attachment for effortless set-up and operation.

Size (LxWxH)	150 x 70 x 102 mm
Weight	640 g
Field-of-View	10°
Magnification	1:1 (2x and 4x digital zoom)
Focus Range	10 m to infinity
Spectral Range	8-14 micron VOx
Battery	2 x 18500 Li-Ion or rechargeable, > 6hrs
Sensor Resolution	1280 x 1024 30Hz
Display	1920 x 1080 Color OLED
Operating Temp.	-20° to 115° F
Environmental	IP66

Range Detection

Building at 1 mile
