

E2™ IR Hunting Light

E2™ Hunting Light is a new step in hunting illumination combining the best visible and night vision illumination, optics and electronics in one package:

- High power long-range NV VCSEL illuminator and super bright Red and Green LEDs
- Superb flat far-field optical system with Fresnel lens
- Constructed from aircraft grade hard anodized finished aluminum and Ultem
- Waterproof and shockproof
- Three modes operation on a single switch - Half power/Full power/Off
- Super strong neodymium magnet foot for quick placement on metal
- Removable handle with power cartridge
- 18650 batteries with built-in USB-C port for recharging (cable included)

Beam Size	10°		
Wavelength	850nm/650nm/530nm		
IR Source	VCSEL 500mW		
LED Visible	Red/Green 1W/1W		
Optics	Fresnel		
Battery Type	3 x 18650		
Battery Life	5 hours continuous		
Length	5.5" - 6.5"		
Weight	26oz w/o battery	4.5oz batteries	3.8oz magnet
Waterproof	IP67		
Shockproof	Yes		
Mounts	1/4-20 Tripod mount and Magnetic rubberized foot
